

## Curriculum Policy Whole School

This policy should be read in conjunction with the School's:

- EYFS Curriculum Policy
- PSHE – Relationships and Sex Education Policy Whole School (not including EYFS)

### School Values

The Mount School encourages everyone to:

- Respect and value every individual.
- Feel they have the freedom to flourish in a calm and caring community.
- Strive for personal excellence.
- Think and live adventurously.
- Make a positive contribution to our changing world.

This statement of values underpins all we do and ensures that we are faithful to our Quaker origins and ethos. Our curriculum aims to develop the values, skills and behaviours pupils need for the future. Through lessons, the 'Global Thinking' programme and numerous extra-curricular activities, we aim to develop a range of character attributes such as resilience which underpin success in British society and the wider world.

### Aims of the Curriculum

The broad and balanced curriculum has been planned to:

- encourage and stimulate the best possible progress and the highest attainment for all pupils;
- equip pupils with essential skills in literacy, speaking and listening, numeracy, computing and information technology and the ability to enquire and make connections across areas of learning;
- build on pupils' strengths and interests and develop confidence in their own capacity to learn and work both independently and collaboratively;
- enable pupils to think creatively and critically, and to solve problems;
- promote pupils' spiritual, moral, social and cultural development including awareness and understanding of British values;
- develop pupils' physical skills and encourage them to recognise the importance of pursuing a healthy lifestyle and keeping themselves and others safe.

Where a pupil has an Education, Health and Care Plan, we aim to provide education which fulfils her requirements.

### Curriculum Areas

17.45	End of School Day/Boarders' Supper	

## **b. Options Year 9 and Year 11**

Our KS4 curriculum is based upon GCSE qualifications. In the Autumn Term of Year 9 pupils start to choose their GCSE subjects. The normal workload for our pupils is 9 GCSEs, but pupils can study 10 if appropriate and fewer than 9 if that is in their best interests.

The following subjects at GCSE are compulsory, and these account for 6 GCSEs:

- English x 2 GCSEs - Language and Literature
- Maths – GCSE
- Science (2 GCSEs)
- French or German (for all pupils able to access the MFL curriculum)

P.E. and PSHE lessons are also a compulsory part of the curriculum.

Pupils choose a further three GCSEs from a list of optional subjects. Currently on that list are:

- 2<sup>nd</sup> modern language (French or German)
- 3<sup>rd</sup> GCSE in Science
- Art and Design
- Classical Civilisation
- Design and Technology
- Drama
- Computer Science
- Geography
- History
- Latin
- Music
- P.E.
- Religious Studies

Our Post-16 curriculum is based upon A-levels. In the Autumn Term of Year 11 pupils start to choose their A-level subjects. The normal workload for our students is 3+ A-levels examined at the end of Year 13. Whilst we would advise studying only 3 A-level subjects, our 3+ A-level offer means that pupils can choose to study a 4<sup>th</sup> A-level or undertake an Extended Project Qualification (EPQ) to supplement their chosen 3 subjects. Students choose their A-levels from a list of subjects:

- Biology
- Chemistry
- Classical Civilisation
- Design Technology
- English
- Fine Art
- French
- Further Maths
- Geography
- German
- History
- Latin
- Maths
- Music
- Physical Education
- Physics
- Psychology

- RS
- Textiles
- Theatre Studies

### **c. Specialist Teaching in Junior School**

To promote continuity and progression from Key Stage 2 to Key Stage 3 (Senior School) we employ cross-phase teaching as follows:

#### Year 3-6 MFL:

Language teaching is by language specialists. This comprises of one lesson a week of French and one lesson a week of German (for all KS2 year groups)

#### Year 5 and 6 Science:

Occasional visits by Year 5 and 6 with class teacher for lessons taught by Senior School Science Specialists

Early Years- Year 6 Music: Taught by Music Specialist

Early Years - Year 6 PE: Taught by PE Specialist
